Effort expectations:

- We all plan to achieve an “A” in the class
- We will spend a minimum of 5 hours a week on lab work

Roles:

- Sedra: group leader, organizer, note-taker
- Eli: lead writer, editor
- Keating: lead robot maker, designer
- Emily: tech lead, coder

Roles are not strict or confining; each member will participate in each task unless specifically divided otherwise

Feedback:

- We will inform each other of our progress during the Saturday check-ins and Wednesday meetings
- We will use non-violent communication (<https://www.cnvc.org/>) to try to come to a consensus on difficult issues for the most part.
- However, if consensus is impossible, we will revert to Robert’s Rules (<https://www.boardeffect.com/blog/roberts-rules-of-order-cheat-sheet>) and abide by a majority vote. As leader, Sedra’s decision breaks ties.
- Each Saturday, we will use the “postmortem” method to reflect on what worked well about working together that week, what didn’t work well, and what we will improve.
- We will use the “Topic-detail brainstorm” method during Wednesdays meetings to discuss ideas and our work
